

smthg.

Find the people who'll love what you make.

A community built around your label.

[@smthg.us](https://smthg.us)

It's about being found.

Your audience is bigger than your followers.

320 of 10,000 followers see a brand's post

Even fewer make it to the product. Fashion stores turn 1.9% of visitors into buyers.

Discovery stops at your followers

Most people find fashion through the same feeds and circles. On smthg, shoppers of brands like yours discover you too.

Creators need samples

Samples slow campaigns down and add cost and waste. With virtual try-on, creators and your ambassadors show your pieces without one.
