01 / THE PROBLEM

Great labels stay unseen.

Being found is the hardest part.

5.5%* reach per post, as a share of followers

1.3%** of store visitors buy

Alone no shared audience, no community

01 / THE PROBLEM

Marketplaces don’t fix it.

A listing alone does not get you found.

—Shoppers search a catalogue. Nobody introduces your label.

—Getting seen takes heavy marketing investment.

—The marketplace itself needs samples.

02 / THE SMTHG CONCEPT

One concept. Three layers.

Each layer grows the next.

01
A new sales channel

02
A community driven by creators

03
Brands that grow together

02 / THE SMTHG CONCEPT · 01

A new channel for your sales.

It starts with a drop.

—Limited drops, available for a limited time.

—We take care of the creators. You don’t need to think about it.

—Add your regular collection when you are ready.

02 / THE SMTHG CONCEPT · 02

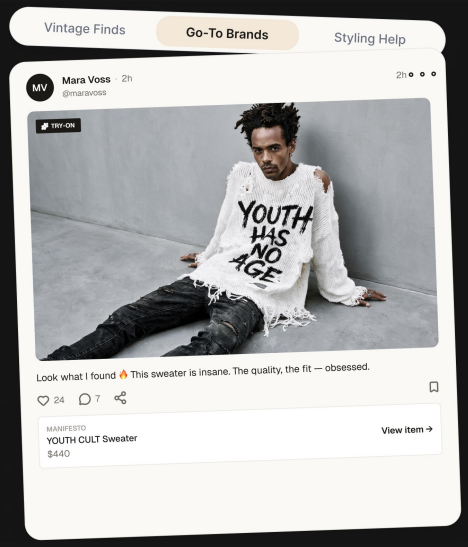

A community, driven by creators.

Creators bring their followers. Members stay, share and come back.

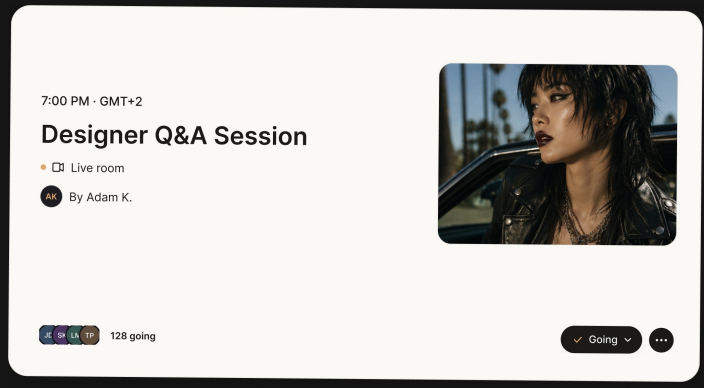

Brand Space

Your drops and your story.

Style Space

Members share what they love.

Live sessions

Meet the people behind the label.

Brands that grow together.

Cross-pollination between labels of a similar style.

—Labels with a similar style share their audiences.

—Shoppers who love one label discover the next.

—Their buyers discover you. Your buyers discover them.

03 / WORKING TOGETHER

How a drop works.

You make it. smthg sells it.

—You set the drop window and the quantities.

—Creators and the community build demand.

—smthg takes payment and handles tax.

—When orders close, you ship straight to each buyer.

Then add your regular collection.
